Degree/Grade	Institution	Score
B.Tech CSE	Sri Venkateswara College of Engineering(SVCE), Tirupati under JNTUA	85.53% [2023]
Intermediate	Narayana Junior College, Anantapur	9.82/10 CGPA [2019]
secondary(high school)	ST VincentDePaul (EM) HS, Anantapur	9.2/10 CGPA [2017]

SKILLS

- **React.js:** Proficient in building user interfaces with React, understanding components, state management, and lifecycle methods.
- **JavaScript (ES6+):** Strong knowledge of modern JavaScript, including arrow functions, destructuring, async/await, and ES6+ features.
- Solid understanding of HTML5 and CSS3 for structuring and styling web applications, including responsive design.
- Familiarity with version control systems like Git and collaboration platforms like GitHub.
- Knowledge of popular front-end libraries and frameworks such as Redux, Axios, and React Router.
- Basic knowledge of back-end technologies such as Node.js, Express.js, or MongoDB .

PROFESSIONAL EXPERIENCE

Web Development Intern

LetsGrowMore | Virtual - 1 Month (period)

- I acquired a strong foundation in web development, including proficiency in front-end technologies such as HTML, CSS, and JavaScript.
- I gained hands-on experience in front-end development, honed my problem-solving skills, and learned to work effectively in a team-oriented environment.

PROJECTS

- **Variety-Mart:** VarietyMart is a feature-rich web application built using React.js that provides a seamless online shopping experience. It offers a wide range of products across various categories, allowing users to browse, search, select, and purchase items with ease. The application is designed with a clean and user-friendly interface, ensuring a smooth shopping journey for customers.
- **DelishDishDive:** DelishDishDive is a React.js web application that helps users discover and explore a wide range of recipes. It leverages a recipe API to provide users with detailed recipe information, including ingredients, instructions, and nutritional facts.
- **Dashboard Insights:** Dashboard Insights is a data visualization web application built using React.js that provides users with an interactive and informative dashboard experience. It allows users to gain insights from their data by displaying various charts, graphs, and statistics in a visually appealing manner.
